

PROCEDURE PRINTER INSTALLATION ANDROID

- 1) Click on the link below in a navigator page. Click on Download.

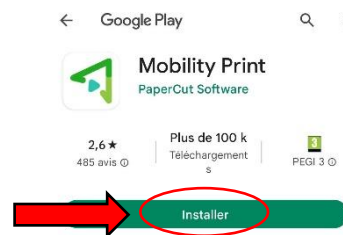

PARIS <http://printetuparis.sk.skema.edu:9163/setup>

LILLE <http://printetulille.sk.skema.edu:9163/setup>

SOPHIA <http://sv06imp01.sk.skema.edu:9163/setup>

- 2) A Google Play store page will be opened. Click on Install.

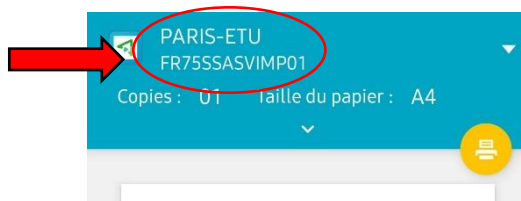

- 3) When you send a printing request, select in the Printer slot:

-**PARIS-ETU** if you are in Paris

-**LILLE-ETU** if you are in Lille

-**SOPHIA-ETU** if you are in Sophia

Then, a Papercut Notification is going to appear. Click on it and type your Skema credential (example: *firstname.lastname* and the Skema password).

- 4) You can now use any printer in the campus. Enter your Papercut code (6 digit numbers you can find in your emails) into the authentication slot. Then, you can take your print out by clicking on Print All.
